

A ROCK COUNTY MAN WINS DISTINCTION

AN INTERESTING SKETCH OF GILBERT N. HAUGEN.

Has Just Been Elected to Congress From the Fourth Iowa District—Was a Playmate of Ex-Congressman Nils P. Haugen, of Plymouth—A Self Made Man.

Another of Rock county's sterling sons has won honor—Gilbert N. Haugen, formerly of the town of Plymouth, but now of Worth county, Iowa. At the recent election Mr. Haugen was chosen to represent the Fourth Iowa district in congress.

Rock county people will remember Mr. Haugen well. He is a son of Nils Haugen, and was born in the town of Plymouth on April 21, 1859. He was of Norwegian parentage and was one of quite a family of boys, all of whom have prospered. His boyhood days were spent on the farm, and his education began in the township schools. Early in life he showed his business qualities and at 15 was engaged in buying and selling horses with ex-Sheriff Halyor L. Skavlen, of this city.

It is an interesting fact that ex-Congressman Nils P. Haugen, of Wisconsin and Congressman G. N. Haugen, of Iowa, spent their boyhood on adjoining farms in the town of Plymouth—one living on section 20 and the other on section 21. They played together and went to school together, neither dreaming of what the future had in store for them. Although of the same name the boys were not related.

In 1893 G. N. Haugen went to Iowa and the Worth County Index gives his biography as follows:

Makes His Own Way.

In 1873 he removed to Winneshiek county, Iowa, and from that time to this he has rustled for himself, overcoming the difficulties of life by an industry and tireless energy which no obstacles could quell. His first experience in Iowa was that of a sturdy boy doing a man's work through a long siege in the harvest field and at stacking, threshing, etc., and there, as in every position since, he never shirked, never failed to keep up his end. In the fall of that year, 1873, this resolute boy of 14 began, in company with another, the career of an active business man, buying horses in Wisconsin and selling them in the then new state of Minnesota. For three or four years his way of life was much the same—full of hard work throughout the summers and equally diligent studying in winter—for Mr. Haugen has always been intensely ambitious to cure his deficiencies, always willing to take the pains and trouble to amount to something. Zeal and energy have been the watchwords of his life, and are in great measure the secrets of his success. In 1877, Mr. Haugen, then a young man of eighteen years, purchased a farm near Kensett, but for some time after continued his winter studies in Decorah, finally finishing with a thorough course in the business college of Janesville, Wisconsin.

Went Into Business.

Then he opened up in the implement business at Kensett, and soon after widened out as a dealer in hardware, grain, stock, real estate, etc. With all his many and private interests he early evinced a taste for official life and an efficiency in the discharge of public duties. He was elected to township office in the year he attained his majority, and has been almost constantly in public office since that time. In 1887 he was elected treasurer of Worth county which position he filled acceptably for three terms, and in 1893 while serving out his closing term was nominated and triumphantly elected to represent this representative district in the Iowa legislature. He served with distinction in the twenty-fifth and twenty-sixth sessions of the general assemblies and the special session, being honored with important chairmanships and good committee positions, and making an enviable record as a formulator of practical legislation in the interest of common people.

Goes To Legislature.

That his legislative course was wholly satisfactory to those most interested has been abundantly attested by the vim and enthusiasm with which three Worth county conventions have adopted resolutions of most cordial commendation. His legislative associates invariably speak highly of him as a companionable gentleman, a tireless worker and a strong, forceful practical legislator. As one of them said of him, "he makes as many bases as the best of them, and he never fans out." From Mr. N. O. Neilson's History of Successful Scandinavians we copy these additional facts: "Mr. Haugen was one of the organizers of the Northwest Banking Co., capital stock about \$50,000, of which concern he became president in 1894. He also owns real estate in Iowa, Minnesota and the Dakotas.

Married in 1873.

In 1873 he was married to Bertha Elisha Evenson, of Winneshiek county; she died in 1892, leaving two children. The late Mrs. Haugen was a lady of lovely character and of many gifts and graces. Mr. Haugen has made for his children and for Mrs. Haugen's mother and sisters an ideal home. His most enthusiastic friends are those of his own household and his closest business associates—a great thing to say in favor of any man. As it seems to us Mr.

HAUGEN'S CAREER AFFORDS A CONSPICUOUS EXAMPLE OF THE OPPORTUNITIES AMERICA OFFERS TO ANY YOUNG MAN OF GOOD ABILITY WHO EXERCISES SUFFICIENT PUSH, PERSISTENCY AND COURAGE.

DEATH OF MRS. BUSKIRK

An Estimable Woman of Rock County Dies Of Consumption.

Mrs. Lena Buskirk was born in Newark, Rock county, Wis., Feb. 4, 1871, and died at her home in the township of Plymouth, Nov. 4, 1898, aged twenty-seven years and nine months. Mrs. Buskirk's maiden name was Zebell. She was married to Fred Buskirk, Sept. 11, 1888, and he, together with three children—two little girls and a boy—were left to mourn the loss of a fond mother and loving wife. Few indeed were the years which she was permitted to walk the pathway of life with her beloved companion but the memories which are his today are bright and beautiful.

Mrs. Buskirk's illness was long and tedious. For more than thirteen months consumption has been doing its fatal work, yet amid it all she has shown the utmost patience and christian fortitude. While she desired to live, that she might be a blessing to her loved ones yet she was ready to depart and be with Christ.

TOMORROW'S GAME CREATES INTEREST

MANY WILL WITNESS THE CHICAGO-WISCONSIN CONTEST.

It Will Be the Most Notable in the West for the Season—Players in the Windy City Fear the Encounter More Than Any They Have Yet Had.

A large number of devotees of football will leave Janesville tomorrow morning to see the game on Marshall Field between Chicago and Wisconsin universities. The railroads have offered reduced rates and fast time, and many will take advantage of the offer to visit the Windy City and take in the most important contest in the west for the season.

Chicago is taking a deeper interest in the game than in any other that has taken place this season. The Inter-Ocean, in speaking of it, says:

The local game of chiefest interest is that scheduled between the universities of Chicago and Wisconsin, on Marshall field. These two elevens are the most evenly matched in the west. Chicago holds the supremacy of prowess without doubt, but Wisconsin seems best able to compete with her. Besides this, the game will present a kicking duel, with Herschberger opposed to O'Dea, which will be the most interesting football feature of the year. Although Herschberger is the stronger and more experienced man, Wisconsin swears by the Australian, and he is certainly the closest approach to Stagg's discovery in the west, if not in America.

Both teams will doubtless depend much upon goals from the field for the points to bring victory, but the weather indications of a muddy field will give Herschberger's place kicks an advantage over the drop-kicking of O'Dea. It will be a battle of the giants in any event. Kinn and Stagg have been the two most successful coaches in the west. One is from Princeton, the other from Yale; but the rivalry which has always existed between the two bodies of undergraduates, is even stronger than this, and it is exceptionally bitter this season. The Tribune predicts that Chicago will be put to the test in tomorrow's game as never before, and adds:

A most unpleasant feature of the football season is the war of protests between Chicago and Wisconsin, and it is becoming the belief among the rest of the western schools that when two institutions cannot trust each other to keep their teams straight, the best thing they can do is to quit playing each other. Wisconsin succeeded in having one of Chicago's men disqualified on a technicality which even the Badgers admit is an unjust ruling. The cardinal has protested another of the team and has made charges against pretty nearly every member of the eleven. Only Hannell, Webb, Mortimer and Schmahli have escaped being charged with professionalism or ineligibility in some particular or other.

However, it is a case of Chicago's chickens coming home to roost, and after the bitter fight Stagg waged against Wisconsin there are many people who smile at the way Wisconsin has succeeded in getting back while echoing Professor Stagg's remark of last spring: "It is in the interest of pure amateur sport."

Secrets in Chinese Sweets.

The Chinese are said to possess secrets in preparation of sweets that astonish our most accomplished confectioners. They know how to remove the pulp from oranges and substitute various jellies. The shells are apparently as intact as when the eggs were newly laid, but upon breaking and opening them the contents consist of nuts and sweetmeats.

'TO BE RUSHED TO CUBA.

War Department Decides to Send a Big Force at Once.

Washington, Nov. 11.—The dispatch of the army of occupation to Cuba, which was announced to begin Thursday from Savannah, has been delayed twenty-four hours. The quartermaster's department said that while there was urgent reason for the dispatch of troops to Cuba at this time the notice was so short that it was not possible to have a transport at Savannah in time for the shipment of troops Thursday.

At the adjutant-general's office it was stated that the war department desired the army of occupation to be landed in Cuba at the earliest possible moment. This is the counter to the opinion of Gen. Miles and Gen. Wade, but it appears that the present diplomatic tension between Spain and the United States has constrained the president to order the army to proceed to Cuba at once.

The quartermaster's department is unfortunately not in position to rush an army of 50,000 soldiers to Cuba. It has at its command only fourteen transports capable of taking 6,000 troops at one time.

As it takes twelve days to load and unload and make the trip to Cuba, it would require eight trips of the combined transport fleet to take 50,000 troops and a lapse of ninety-six days before the whole army could be landed.

Allows the Writ of Error.

Lansing, Mich., Nov. 11.—A writ of error was allowed by Justice Grant of the supreme court Thursday in the case of Gov. Pingree against the Michigan Central railroad to compel the sale of 1,000-mile family mileage tickets under the law of 1891, and the case will be heard in the federal supreme court. The court at first was of the opinion that no federal question was involved, and has had the case under advisement. The special charter privileges of the Michigan Central road, it was held in this court, exempted the company from the provisions of the law.

THE LIST IS COMPLETED.

Republicans Claim a Majority in Congress.

TWO DISTRICTS TO REPORT.

Mr. Babcock, Chairman of the Republican Congressional Committee, Claims a Clear Majority of Thirteen in the Next House—Opposition Figures.

Washington, Nov. 11.—Chairman Babcock of the republican congressional committee has practically completed a list of the representatives-elect. The latest authentic advices received by the republican committee indicate that two districts are in doubt yet, viz., the Second California and the Twelfth Texas. In both, however, Mr. Babcock concedes that the chances are favorable to the democrats. He claims neither of them.

Mr. Babcock's figures show the election of 185 straight republicans, 183 democrats, 6 populists and one silver-republican. These figures do not include the two doubtful districts mentioned. Conceding these two districts to the democrats, as a means of reaching definite results, Mr. Babcock claims a certain majority of thirteen over all opposition.

Little information of a definite nature was received by the democratic congressional committee. Secretary Kerr maintained that the opposition to the republicans would organize and control the next house of representatives. His figures indicated that the opposition would have at least 180 votes and perhaps 181.

Following is a summary of the standing of the next house of representatives by states:

POYNTER WINS IN NEBRASKA.

Republicans Concede the State to the Fusion Candidate.

Omaha, Neb., Nov. 11.—With returns complete from fifty-two counties and practically complete returns on the rest of the state Chairman Schneider of the republican state committee concedes the election of Poynter, fusion, for governor, by 1,000 votes. It is possible that the figures may vary 200 from this, but hardly more. Returns on the rest of the state ticket indicate that the candidates are running about the same as the head of the ticket. The legislature is republican on joint ballot, according to republican claims, but the two parties so far are tied as to certain members—sixty-five, with three districts in doubt. The question of a United States senator is in doubt.

INDIANA REPUBLICAN BY 15,000.

Official Returns Do Not Change the Results of the Election.

Indianapolis, Ind., Nov. 11.—The vote cast Tuesday has been canvassed by the county election boards of the state. The official returns do not change the unofficial returns materially. The republican plurality for the state ticket will be between 15,000 and 16,000. The official vote shows the election of nine republican and four democratic congressmen. The latest returns increase the republican majority on joint ballot in the legislature to twenty-four.

Woman Suffrage in the Lead.

Sioux Falls, S. D., Nov. 11.—From present indications it looks as if the constitutional amendments on equal suffrage, initiative and referendum and state dispensary had carried in North Dakota. Nothing positive is likely to be known, though, until Saturday, as only half the counties have thus far reported on these features of the election.

Close Race in Nevada.

Reno, Nev., Nov. 11.—Complete returns from seventy-nine precincts and

partial returns from Lincoln county, for governor: Sadler, 2,768; McMillan, 2,878; McCullough, 746; Russell, 1,535. For congress: Newlands, 4,383; Wren, 2,606. Storey county elects the entire republican legislative ticket. Ormsby elects silver senator, one republican and two silver assemblymen; Washoe, republican senator, three republicans and one silver democrat assemblyman. The indications are that the race for governor is close between McMillan and Sadler.

Kansas Republican by 15,895.

Topeka, Kas., Nov. 11.—Complete official returns give W. E. Stanley, republican, for governor, 15,895 majority. Chairman Albaugh of the republican state committee gives credit to the anti-fusion ring of the democracy, which voted the straight republican ticket, and claims 5,000 votes from this source. The house of representatives stands ninety-five republicans and thirty fusionists. E. R. Ridgely, populist, the only one of that faith elected to congress, has 1,100 majority. Two years ago he was elected by 4,000 majority.

Montana Is Democratic.

Helena, Mont., Nov. 11.—A. J. Campbell (dem.) has a plurality of 5,000 for congress. W. Y. Pemberton (dem.) is re-elected chief justice by 700. W. T. Piggit is elected associate justice and Rickerts clerk of the supreme court. Both are democrats. Republicans will have less than twenty members all told in the legislature out of ninety-two.

Seaford Wins by Over 35,000.

Milwaukee, Nov. 11.—As the returns come in from the state they increase rather than decrease the republican pluralities. It seems now that Gov. Seaford will have from 35,000 to 40,000 plurality, and the rest of the state ticket about 10,000 more.

Utah Is Democratic.

Salt Lake City, Utah, Nov. 11.—Returns from about seven-eighths of the precincts in the state give Roberts (dem.), for congress, 32,316; Eldredge (rep.), 27,108; Baskin (dem.), for supreme judge, 31,669; Zane (rep.), 28,472.

War Measures at Halifax.

Toronto, Nov. 11.—With unwavering activity preparations for war proceed at Halifax. The sailors and marines engaged in laying submarine mines can be seen from several points, but sentries prevent strangers from standing on or even approaching those points. Steps have been taken to protect deep-water harbors on the Nova Scotian coast and in the bay of Fundy. Every vessel coming for coal has to give particulars of where the coal is for.

Smallpox Prevails in Ohio.

Toledo, O., Nov. 11.—Dr. Probst of the state board of health has returned from Loveland, where seventy cases of smallpox have just been discovered. The epidemic is in mild form and has been raging for months. He says that there is no excuse for mistaking the disease for chicken pox, which was done. The disease is on the increase at Sandusky. It is learned that a clerk in a store has been at work after being exposed and that he has come in contact with scores of persons.

To Fight for the Temple.

St. Paul, Minn., Nov. 11.—Mrs. Matilda B. Carse of Chicago, originator of the idea of a great temperance temple, has arrived here. The committee on the temple has decided by a majority vote to drop the effort being made to raise the money needed. The matter has not ended, however. Mrs. Carse announced that she would push the matter all the harder and Monday is set as the day for the final battle.

SINGULAR STATEMENT.

From Mrs. Rank to Mrs. Pinkham.

The following letter to Mrs. Pinkham from Mrs. M. RANK, No. 2,354 East Susquehanna Ave., Philadelphia, Pa., is a remarkable statement of relief from utter discouragement. She says:

"I never can find words with which to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me."

"Some years ago I had womb trouble and doctored for a long time, not seeing any improvement. At times I would feel well enough, and other times was miserable. So it went on until last October, I felt something terrible creeping over me, I knew not what, but kept getting worse. I can hardly explain my feelings at that time. I was so depressed in spirits that I did not wish to live, although I had everything to live for. Had hysteria, was very nervous; could not sleep and was not safe to be left alone."

"Indeed, I thought I would lose my mind. No one knows what I endured."

"I continued this way until the last of February, when I saw in a paper a testimonial of a lady whose case was similar to mine, and who had been cured by Lydia E. Pinkham's Vegetable Compound. I determined to try it, and felt better after the first dose. I continued taking it, and to-day am a well woman, and can say from my heart, 'Thank God for such a medicine.'"

Mrs. Pinkham invites all suffering women to write to her at Lynn, Mass., for advice. All such letters are seen and answered by women only.

If you have not been able to find a coat that suits you, come in and look through this line and we believe you will find a garment to please you. We have made ample provision for ladies wearing larger sizes than the average and are showing a very satisfactory lot of coats in sizes 38, 40, 42, 44 and 46 bust measure. ABOUT THE NEW DEPOT

The Chicago & Northwestern railway company cannot legally buy the signatures of property owners, to cause the vacation of Wall street to allow room for the new depot, for then the vacation would be based upon fraud, and be subject to attack in court by any citizen. This is the judgment of a prominent Janesville attorney. Therefore the question at issue is not whether or not the company shall settle with the people who object to the vacation. The question is "shall the street remain closed, and the depot stand as it does, or shall the street be opened, and the train shed torn down?" That is all there is to it, the attorney in question says.

The railroad company agreed to build the depot "when the street was vacated," and did so. The railway company has kept its part of the agreement, but the supreme court has said that the vacation should not stand. Therefore, either the street must again be vacated—legally, this time—or the railway company must tear down the train shed, open the street, and again, as of old, land the passengers in the mire instead of under cover, and on a platform.

The erection of the new depot is the most substantial improvement made in Janesville in some years. Every foot of property near it has consequently been enhanced in value. The fact that Academy street crossing is never blocked by the long passenger trains, under the present arrangement, is another advantage gained. The rookeries on the lots now owned by the company—formerly the coal yard—have been torn down, decreasing fire hazard, and adding greatly to appearances, while the closing of the Wall street crossing—admittedly a dangerous one—is the only sacrifice made by the city.

It would be a shame to tear a single board from that depot. After years of waiting—because the company could not get sufficient space to build—Janesville has been given a depot in keeping with the city's growth and progress. Now that we have it, some plan should be devised to keep it, just as it is.

It does not appear that the Milwaukee papers need devote much time to trying to figure out the reason that the Poles in that city did not vote the democratic ticket. To a man up a tree the reason is apparent—the Poles note conditions rather than theories, and will hereafter be found in the republican ranks.

Judging from the fact that it took six columns in a Milwaukee paper to chronicle the saying of the ladies at the meeting of the State Federation of Women's clubs, it would appear that the session was "enjoyable" as well as "profitable for all concerned," as the brethren of the press might say.

War, in a tropical country, is a severe trial of men. One third of the troops that served under Kitchener in the Nile campaign are invalided in consequence, regardless of the fact that England is reputed to take better care of her soldiers than any other nation.

Of the 1,200 Missouri mules sent to Santiago only twenty died. The Missouri mule is a good deal like the Swede's home made wagon—"hay not bay mooch f'r pretty, but hay bay haal f'r stout!"

It is all right for the cities of Neenah and Menasha to consolidate, but we hereby register a formal protest against the consolidation of the names of the two towns.

It is to be hoped that the Maria Teresa can be saved. She should be put in service in Uncle Sam's navy, even if repairs and salvage amounted to more than the vessel cost.

The election of Frances B. Keene, of Milwaukee, as a member of the assembly may also be construed to be a recognition of the game of "golluf."

CRISIS IS CLOSE AT HAND.

Sagasta May Be Forced to Close Peace Negotiations.

THE NEXT MEETING DECISIVE.

Further Proceedings Will Then Either Be Dropped or Speedily Finished on the Lines of the American Memorandum.—The Kaiser's Visit to Spain.

Paris, Nov. 11.—The decision of Spain on the question of accepting or rejecting the terms of peace offered by the United States has not yet been made. Senor Montero Rios, the president of the Spanish peace commission, recommends the abandonment of the negotiations. There are indications that Prime Minister Sagasta is unwilling to resort to this extreme course, but he will probably be compelled to adopt Senor Montero Rios' policy.

There are frequent exchanges of messages between Paris and Madrid, and the next session of the commission, instead of taking place on Saturday, will probably be postponed until Monday. It would, therefore, be premature to make any forecast, as the situation may be materially modified before that time. The next meeting, however, will be decisive, for the negotiations will either be dropped or speedily finished on the lines of the American memorandum.

Spain continues to seek every possible political advantage from Emperor William's proposed visit to Cadiz on his return from the east. An invitation for the emperor and empress to visit Madrid has not yet been accepted. The Journal des Debats, referring to Lord Salisbury's allusion to his Mansion house speech to the United States, says:

"This is a threat of an Anglo-American coalition addressed to the other powers and an invitation to the Americans to make it a reality. It remains to be seen whether the Americans will willingly play the part of trailblazers to the British policy. The new factor in grand international politics, partially inspired by Irish and German memories, will doubtless act in its own interests."

Says Spain Will Not Yield.

Madrid, Nov. 11.—The Madrid newspapers are regaling their readers with virulent attacks upon everything American. They assert that "owing to the brutality of the American soldiery, brigandage is rife in the interior of Porto Rico and many residents are quitting their homes." They compare the "present disorder" with the "tranquillity under Spanish rule." With regard to the Philippines they reiterate that "America's demands will not be tolerated."

HOLD UP A TRAIN.

Eight Robbers Blow Open a Safe on Great Northern Express.

Fergus Falls, Minn., Nov. 11.—The Great Northern through train, which passes through this city at 7:30 o'clock, was held up and robbed five miles west of here Thursday night.

There were eight robbers in the gang, all well armed. The local safe was destroyed, and it is thought that they succeeded in securing considerable money, but the exact amount cannot be learned.

The through safe was drilled and partly blown open with dynamite, four charges being used. The jacket was blown off, but it was found impossible to reach the inner part and get at the money.

Two posses, headed by Sheriff Billings and the local police, have left the city in pursuit of the bandits.

Says Indians Are Peaceable.

Muskogee, I. T., Nov. 11.—Indian Agent Wisdom says the report that the Creek Indians were fighting at Okmulgee over the result of the recent election to ratify or reject the Dawes-Creek treaty is false. Inspector Wright went to Okmulgee last Monday to be present at the reconvening of the Creek council, and as yet Agent Wisdom has not been informed of any trouble there. He says he is confident that all is quiet.

Wants Our Assistance.

London, Nov. 11.—The Standard's Vienna correspondent telegraphs an interview with a prominent official, who says that Lord Salisbury wants the assistance of the United States to drive Russia out of China. With such an object, there would certainly be war shortly, and the Spanish question would be a decidedly better pretext than the Bahr-el-Ghazel matter.

Government Crop Report.

Washington, Nov. 11.—The November report of the statistician of the department of agriculture will give 24.8 bushels as the average yield per acre of corn, according to the preliminary returns of the department's correspondents. The preliminary estimate last year was 23.7 bushels and that of 1896 27.3 bushels.

Lake Michigan Storm Swept.

Chicago, Nov. 12.—Death and ruin were in the hurricane that swept down Lake Michigan Wednesday night and yesterday. Two ships went down, five men losing their lives, and several boats are missing or in port greatly damaged. The devastation along the shore was very great.

FITTED FOR WAR SERVICE.

France Will Be Ready for the Inevitable Conflict.

Paris, Nov. 11.—The Matin says that at a council of the admirals held yesterday it was decided to fit out all the French war vessels available, and thirty reserve ships have been ordered into commission.

The newspapers of this city, notably the Gaulois and the Figaro, express satisfaction at the marquis of Salisbury's speech, delivered at the Guildhall banquet last night, which they consider as tending toward a peaceful solution of the misunderstanding, as replacing the Fashoda question on its proper ground.

YOU CANNOT CURE PILES

By Internal Remedies

The only way to cure piles in every form is to use a remedy like the Pyramid Pile Cure which is applied directly to the parts affected and its wonderful healing effects are felt on the first application because the medical properties are rapidly absorbed by the sensitive membranes of the rectum and the cure is speedily made, and almost before the patient is aware of it, every trace of piles has left him.

This is one reason why the Pyramid Pile Cure has been so successful. It is applied directly where it is needed and where it will do the most good. Not by the roundabout way of the stomach nor by the harsh, barbarous methods of various surgical operations and so-called systems.

Its advantages over all other pile cures are these: It cures without pain, the cure is lasting, it contains no poison and is the quickest and cheapest cure yet found. It is made by the Pyramid Drug Co., of Marshall, Mich., and sold by all druggists at one dollar per package.

Luccheni Sentenced for Life.

Geneva, Switzerland, Nov. 11.—The Italian anarchist, Luigi Luccheni, who stabbed and killed Empress Elizabeth of Austria Sept. 10, was placed on trial Thursday. The court was crowded and the prisoner was strongly guarded, but there was no excitement. Luccheni was sentenced to rigorous imprisonment for life.

A Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by People's Drug Co.

PARISIAN OPINION.

Newspaper Comment as to Our Action on the Philippines.

Paris, Nov. 11.—The opinions of newspapers here as to our attitude on the Philippine question are interesting. The Figaro says:

"The Americans persist in refusing to take over the Cuban debt and exact the cession of the Philippines. The Spaniards, on their side, refuse to cede the archipelago."

"The Petit Bleu says: 'All diplomatic forms were outraged by the Americans at yesterday's sitting. It is customary in such cases to read the memorandum presented to the other side. The Americans, however, contented themselves with throwing it, written in English, upon the table.'"

Continuing, the Petit Bleu says: "A member of the Spanish commission has remarked that his colleagues can never admit the claims of America in regard to the Philippines. The protocol says the treaty of peace shall determine the disposition and control of the Philippines and the Americans now claim that 'disposition' means that the colony shall be surrendered to America. This Spain can never admit."

The Petit Bleu expresses its belief in an early rupture of the negotiations. The Rappel says: "A Spanish commissioner has declared that the Spaniards will yield only to force in the question of the Philippine islands."

Continuing the Rappel asserts that it anticipates the rupture of the negotiations at an early date, adding: "The country which started out as the liberator of Cuba now threatens war, although her demands as to Cuba have been acceded to, because she cannot annex territory which played no part in bringing on of the war. We preferred the liberator of Cuba to the oppressor of Spain."

Three to two,
Favorite Base Burners have three hot air flues. Other stoves have but two
Never noticed the flues?
Most people haven't.

Flues carry the heat from the fire pot around the stove. In a three-flue stove (the Favorite) two flues carry the heat down the outer edges of back and around the extreme outer edges of base to the front of the stove. Here they unite and return across the center of base and up the center of back.

Three flues on the back of stove, three flues on the base of stove.

Every inch of the stove a positive heating surface.

A two-flue stove has but one flue down and one flue up.

The three-flue arrangement spreads the heat to the extreme outer surfaces of the back and of the base.

The more heating surface you have the less coal you waste.

PISO'S CURE

For Consumption

I have been taking Piso's Cure for Consumption since 1883, for Coughs and Colds. I had an attack of LaGrippe in 1890, and have had others since. In the Winter of 1896-7, I had a spell of Bronchitis, lasting all winter, and leaving a troublesome cough, until I again tried Piso's Cure, which relieved me.—Mrs. M. B. SMALLEY, Colorado Springs, Colo., August 19, 1898.

Reasons Why...

Do you prefer buying your Groceries at a clean, well kept store where the floors are washed often and where dust is an unknown quantity on the shelves, where the goods are arranged in a manner to make them inviting enough to eat when you see them, where Groceries old and musty are unknown, where everybody connected with the establishment is doing their utmost to please you, where if you have any complaint to make (and you know that you often do)

it is listened to pleasantly and everything possible that can be done to right the matter is done, where your Groceries are delivered when you want them and when they are promised to be delivered, where the prices are so low that the balance is always in your favor.

Your inclinations certainly do not naturally draw you to the store where the first impression on entering the door is unpleasant - where the goods lay around bit or miss, some on the floor, a few piled on the shelves, but more of them laying around loosely, where the dusting and sweeping (whenever it is done) is rushed through with in the quickest possible manner, where the dirt is piled up in one corner, where the clerks are in no hurry to wait upon you and when they do you are not perfectly certain of getting the best there is nor what you expected to get, where low prices are perhaps made but it is always a question as to the quality.

The comparison drawn here is not too strong. You get all the attention talked of in the first part at our store, and none of that spoken of in the latter part of this ad. Why not make this your trading place?

We are going to sell these Potatoes out of the car, and in 5-bushel lots or over make a price of 40c per bushel, delivered. If Potatoes are hauled from car by individuals they come at 35c per bushel in the 5-bushel and over quantities. Samples can be seen at our store.

APPLES—A carload of fancy Michigan Apples, all varieties, was picked out personally and the stock is now in our mammoth cold storage; the choicest fruit in the city. Our prices are now about the same as wholesale prices, and before long they will advance. Apples will be high this winter; we advise early buying.
